EDUCATION

Des Moines Area Community College

Des Moines, Iowa

A.A.S., Computer Information Systems

- Dean's List - 3.30 GPA
- Relevant Coursework: Java I & II, Python I & II, C#, JavaScript, HTML & CSS, Programming Logic, Data Structures, Database & SQL, SQL/Oracle

PROJECTS

Emote Manager (Website)

(emotemanager.xyz)

Full-stack Web Application | React, Express, Typescript

Feb 2023

- Built a responsive, component-driven UI in React and TypeScript using a modular architecture for maintainability and rapid feature development.
- Designed a secure Express.js backend integrating the Stripe API for real-time subscription management and PCI-compliant payment processing.
- Optimized performance through code-splitting, caching strategies, and deployment tuning, achieving low-latency load times and scalable infrastructure.
- Actively maintain and iterate on the application, resolving bugs, and updates based on feedback.

JMdictSQLite

(github.com/seanmcbroom/JMdictSQLite)

Japanese-English Database Tool | TypeScript, SQLite

July 2025

- Transformed the official JMdict dataset into an optimized, distributable SQLite schema for offline Japanese-English lexical lookups.
- Implemented a semi-custom XML stream parser in TypeScript to process and normalize 180K+ dictionary entries for efficient storage and retrieval.
- Released as an open-source resource for developers building Japanese language tooling.

SKILLS

Technical Skills

- **Languages:** TypeScript, JavaScript, Node.js, Java, C#, SQL
- **Frameworks & Libraries:** React, Vue, Express.js
- **Tools & Platforms:** Git, GitHub, Linux, VS Code, Node.js project structure, CI/CD pipelines (GitHub Actions)
- **Networking:** TCP/IP, DHCP, DNS, router configuration, firewall & port forwarding
- **Other:** UX/UI Design, Responsive Web Development, 70–80 WPM typing speed
